GUIDELINES FOR HOCKEY INDIA MEMBER SELECTION TRIALS

The Selection of any Hockey India Members team should be undertaken to select the best deserving players to represent their Member Unit in any Hockey India sanction tournament or district level tournaments.

1. Composition of Selection Committee

Prior to the selection trials, a Selection Committee is to be formed / constituted with the main aim to enable selection of the best possible representatives for each particular position. The Selection Committee should consist of minimum three members and all should have hockey experience and ideally be former senior players / coaches who have expertise in the field of modern day hockey.

2. Selection Procedure

The following should be ensured for selection trials:

- Dates of trials should be informed at-least one week in advance to all Districts / Zones / Clubs and respective organizations which are affiliated to the Hockey India Member Unit.
- Where possible the Selection Trials should be held more than once to ascertain the capabilities of all available players.
- Where possible a core group should be selected and trained prior to selecting the final team for the tournament. This would also enable a set of younger players to gain expertise from their seniors during their training schedule.
- Should a deserving player due to injury, be unable to attend the selection trial, the player may be considered at the discretion of the Selection Committee at a later stage.
- The final minutes of the Selection Committee Meeting during the trials should be signed by all the members of the Selection Committee (minimum three members) and a copy of the minutes must be available on record with the General Secretary of the Member Unit.

3. Selecting Players from Another Hockey India Member Unit

If members are selecting a player that is registered for another Hockey India Member Unit then they will need to obtain an NOC from that Member Unit prior to the player being permitted to play.

Members are advised to consult the Hockey India Player Transfer Policy for further details.
